

The KVM AS-9108DA DVI is a professional 8-port KVM switch. It is mainly used in server cabinets in which several servers are installed, which can be operated centrally via the KVM AS-9108DA DVI with a keyboard, mouse and monitor thanks to the integrated switching option.

The integrated password protection prevents access to keyboard and monitor and additionally secures your servers against unauthorised operation.

The KVM is connected to the computer via USB and DVI using the 8 connection cables supplied.

Specifications

Keyboard / Mouse Connection	USB
